RED BLEND - VIGNETI DELLE DOLOMITI IGT

Mezzacorona Red Blend expresses the aromatic richness of two noble varieties of the Dolomites, Teroldego and Marzemino.

Production area

The red grapes that grow on the granite soils of the hillsides in the Dolomite area require an exercise of patience. These are soils that produce grapes with a unique aromatic profile, such as Teroldego, Marzemino and Merlot.

Grapes Teroldego, Marzemino and Merlot

Vinification

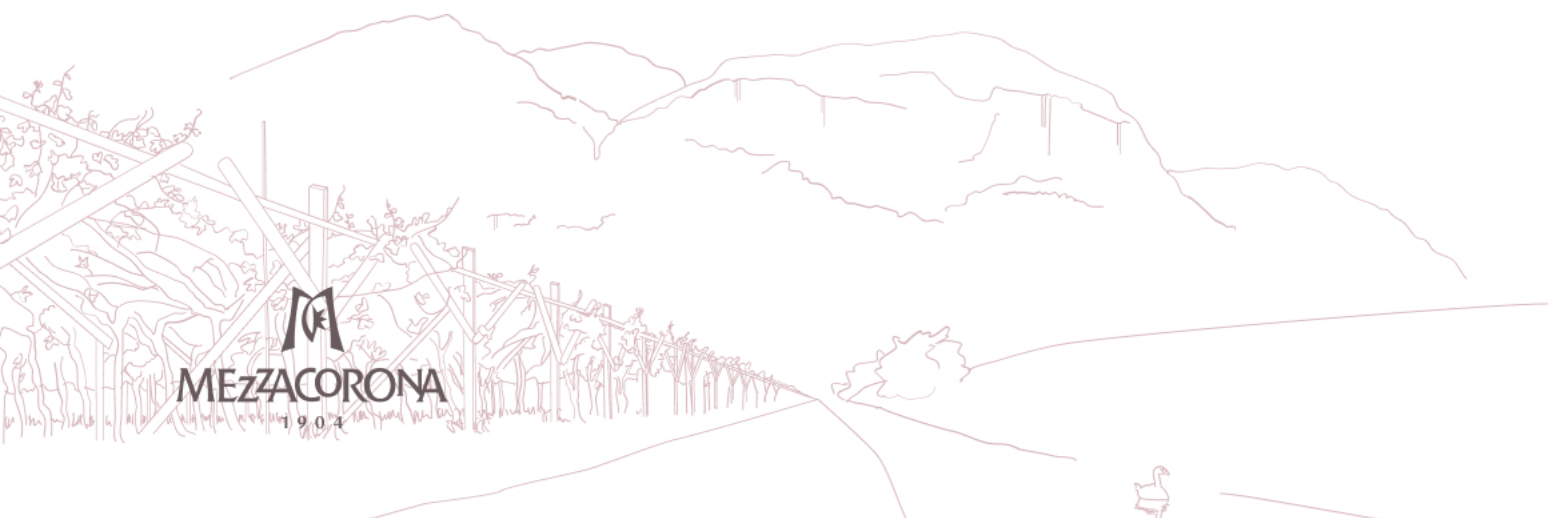

The Teroldego & Marzemino are vinified in the classic red winemaking style at 73-84°C for several days with the addition of selected yeasts. Then Teroldego and Merlot are matured in French oak barrels (lightly roasted, 3 years old).

Alcohol content

13%

Serving temperature

61-64°F
